## Opticom Tech's Industrial Video Solutions Are Ideal For Oil & Gas Facilities.

To increase the productivity and efficiency of oil & gas facilities a high quality and reliable video system is essential. Video cameras provide operators real-time monitoring from one or many locations, both onsite and remotely. Opticom CC03 Series intrinsically safe cameras are certified for use in all hazardous locations. Our CC06 Series cameras feature SS316 (AISI) housings for use in marine environments. All cameras are waterproof, dust resistant and rigorously engineered for reliable operation in any application. Opticom has camera solutions for oil rigs, loading facilities, refineries and gas plants.

Opticom Tech provides complete systems including industrial grade digital recorders and a full line of high definition LCD monitors. Real-time video solutions are available in IP, HD-TVI and analog formats and are fully scalable to any size of plant.

All systems are remotely accessible from any network connected PC whether locally or from around the world. Our video products are fully backed by our industry leading warranties, comprehensive technical support and exceptional customer service.

### ADDITIONAL BENEFITS OF ADDING A VISUAL SYSTEM:

- Monitor operations
- Increase productivity
- Reduce downtime
- Improve security & safety

# What is an Explosion-Protected Camera?

Explosion-protected cameras are cameras that are installed into heavy-duty industrial housings. The housings prevent explosions or inside sparks from escaping and igniting dust, fibers, gases or vapors in the surrounding air.

**CC03-IP2MF36IR**
Explosion Proof
Network Camera

**CC03-IP2MVFIR**
Explosion Proof
Network Camera

**CC03-1F**
Explosion Proof
